

TO GROW OUR TEAM IN EYNATTEN (BELGIUM) WE ARE LOOKING FOR:

MECHANICAL ENGINEER (M/F/D)

PERMANENT CONTRACT IN FULL TIME

Founded in 2008, STERISYS is now one of Europe's leading providers of sterilization systems for medical devices and robotic handling solutions for the pharmaceutical industry. Based in Belgium and Luxembourg, our team of over 30 passionate professionals works every day to shape the future of healthcare.

YOUR TASKS

- Engineering of components, machines and installations in compliance with the customers' requirements and consideration of all standards
- Ensure technical calculations and advise the project team in all calculation matters
- Develop solutions for new installations and renewals as well as extensions of existing installations
- Cooperate with the project team for cost optimization and risk minimization
- Write technical documentation
- Establish risk assessment and analyses

YOUR PROFILE

- Bachelor or Master Degree in mechanical engineering or similar
- Experience in mechanical engineering is an advantage, but career starters are also welcome
- Ability to organize and structure your daily work
- Strong communication skills and team spirit
- Good level of German or French; good knowledge of English

WE OFFER

- Independent work in an international, innovative, and friendly environment
- A structured onboarding program that helps you get to know your future role, our company and our industry step by step
- Flexible working hours
- Opportunities for personal and professional growth with regular training and development programs
- An attractive salary package with additional benefits
